

SECTIONAL DOORS
MODEL 1380

Solid commercial construction meets variety and style.

The Model 1380 is built with two 27-gauge steel skins surrounding 1-3/8" CFC-free polystyrene. Amarr's 4-step insulation system includes tongue and groove construction, CFC-free polystyrene insulation, weather-stripping, and a thermal break that provides a solid wall of protection against the elements.

The exterior steel skin features a flush profile with woodgrain embossment for a more upscale look reminiscent of typical residential doors. The interior skin features a flush profile with stucco embossment for a clean interior surface.

The Model 1380 is available pre-painted in True White, Almond, Wicker Tan, and Sandtone, and is available with three window options to meet your aesthetic and security needs.
